

Health and Safety – General policy

Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children learn and are cared for. To develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children and parents we provide information, training and supervision. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement our health and safety procedures are set out within this policy and sufficient resources will be made available to provide a safe environment.

The policy will be kept up to date, particularly as the nursery changes in nature and size and will be revised annually, or as and when required. We therefore welcome any useful comments from members of staff, parents and visitors regarding this policy.
